

## Your Partner in Quality Welded Steel Tubing

### Highest Quality Tubing Capable of Severe Fabrication

Your satisfaction is our # 1 concern.

- Extensive destructive and non-destructive testing, exceeding industry standards by as much as 200%.
- Capable of withstanding expansion, reducing, flaring, bending, and more.
- Family-owned metallurgy lab assures you get even faster response as we work together on application development and troubleshoot technical issues.

### Fast and Flexible to meet your changing needs

Quick turn-around and the ability to deliver on-demand, when you need it most.

- Multiple lines and interchangeable tooling to react quickly to your changing needs.
- Preplanning, forecasting and JIT inventory control, to be flexible and deliver on your schedule (even if it changes).
- A variety of end finish capabilities to facilitate mandrel bends, expansions, reductions, etc.
- When you need us, we're available. We guarantee a rapid response to any inquiry, issue, request for quote, etc.

### Partnering with you to keep your operation running smoothly

We put our knowledge to work for you, and are committed to your overall success.

- Experienced production teams are available to review your tube application and assist in your part design.
- With our extensive steel knowledge, we can help ensure you use the best steel for your formability requirements.
- Our exposure to numerous fabrication methods means you can call on us as a resource, minimizing the risk of downtime.

### Extensive Capabilities

#### Product Offerings

We specialize in Extra Deep Drawn Steel Tube for severe fabrication.

We offer steel tube in the following steel types:

- Cold Rolled
- Galvanized
- Galvannealed
- Hot Rolled
- Aluminized
- Zinc Nickel

#### Regular and Custom Sizes:

Gauge Range (Wall):	.025" (.638 mm) -- .150" (3.827 mm)
Popular Runs (OD):	.313", .50", .625", .75", 1.0", 1.067", 1.5", 1.681", 2.0", 2.755"
Full Range (OD):	.313" (8 mm) – 3.125" (76.5 mm)

#### Shapes for any application

Our carbon steel and coated options are available in D-shape, Double-D, Square, Round, Oval, and Rectangle and specialty shapes.

We welcome the opportunity to address your unique shape requirements.
